Career Objective

I am a B.Tech Computer Science student looking for opportunities where I can use my technical skills, find creative solutions, and work on real-world problems. I want to learn new technologies,, work with experienced professionals and grow in my career. My goal is to keep learning, face new challenges, and make a positive impact in the industry

Education

Bachelor of Technology (B.Tech) in Computer Science
Shri Shankaracharya Technical Campus | 2021-2025 | CGPA: 7.84

Higher Secondary Certificate (HSC)
Krishna Public School (CBSE Board) | 2018-2019 | Percentage: 86%

Secondary School Certificate (SSC)
Krishna Public School (CBSE Board) | 2020-2021 | Percentage: 84%

Skills

Front End: HTML, CSS, JavaScript, React

Back End: Java, Python

Database Management: MySQL

Other Skills: MS Office, MS Word, Data Structures and Algorithms (DSA), Adaptability, Ability to Learn, Problem Solving

Projects

Jarvis AI Assistant

Created a Python-based virtual assistant that executes tasks like web browsing, file management, and sending emails through voice commands. Utilized libraries like Speech Recognition for voice input, pyttsx3 for text-to-speech, and Selenium for web automation, creating an interactive and efficient user experience.

Hotel Management System

Developed a hotel management application using Java for the backend logic and MySQL for database management. The system efficiently handles room bookings, guest check-ins/check-outs, and billing processes, including modules for managing customer information, reservations, and payment processing, ensuring seamless hotel operations.

Food Recipe App

Developed a Food Recipe App using React JS featuring an extensive recipe library with advanced search filters, interactive cooking instructions, and personalized recommendations. The app includes a shopping list generator and meal planning tools, all presented through a user-friendly interface.

Certifications

JAVA Certification by SEED IT Solution

Web Development Certification by SKILLRAACE

Python Certification authorized by Google and offered through Coursera

Python for Data Science by Great Learning Platform.

Personal Details

Date of Birth: 07/04/2003

Gender: Female

Marital Status: Single

Ongoing Semester: 7th Semester
